A) About Lasgo

Lasgo is an interactive WordPress tutorial plugin that helps you learn the basics of WP by displaying tips about the page you select, searching for answers or taking an exam to test your skills.

In the plugin are included jokes as well, which Lasgo will display from time to time. If you find them annoying, you can disable them in the Lasgo Settings area.

B) Requirements

Requires: 2.0.2 or higher WordPress installation

Compatible up to: 3.7.1 – tested

C) Installation & Setup

Setting up Lasgo is easy, just follow these instructions:

1. Download Lasgo.zip file
 2. In the WordPress back-end go in Plugins > Add New (<http://site.com/wp-admin/plugin-install.php>) and Select Upload
 3. Upload and activate the plugin
-

D) Updating Lasgo

Please check CodeCanyon for new versions, by selecting to be notified when an update is ready.

E) How to Use

Lasgo is an interactive plugin whose interface will pop-out when you go in the WP admin area, no matter on which page you are.

You can start in Levels to see what your status is, and how you can earn more points, and then take the exam to enter the next level. Searching will help you get better results on the exams and learn more.

NOTE: Lasgo is not loaded on the front page/home page only the Admin page.

F) Sections

When you click on any of the icons bellow Lasgo, or on the Learn more link a popup will be displayed with the following:

- **Search**
 - **Post A Question**
 - **Points & Levels**
 - **Learn More**
-

G) Support
